

RMeans Plumbing Unit Cost Database

Over 15,000 unit price costs for plumbing and fire protection covering all types of installations. Enables you to estimate your projects down to every length of pipe and fitting.

Covers all facets of plumbing work including:

- Fixtures
- Pumps
- Piping
- Water Appliances

Your comprehensive estimating and cost planning resource.

- Provide a "realitycheck" for any estimate, bid or change order.
- Plug gaps in preliminary estimates.
- Quote benchmark prices for alternate material or design approaches.
- Double check your estimates.
- Estimate labor hours.
- Estimate work at project sites anywhere in the U.S. or Canada.
- Resolve disputes over billings with an impartial, universally respected authority.

Costs broken down into:

- Materials
- Labor
- Equipment
- Overhead and Profit

Provides instant access to current materials and trade labor prices for virtually all types of contemporary plumbing and fire protection contracting.

Organized according to the MasterFormat04 system of classification and numbering as developed by the **Construction Specifications Institute (CSI)** and the **Construction Specifications Canada (CSC)**.

2009 Count of unit cost lines by CSI division:

CSI Division	Count	CSI Division	Count
1-General Requirements	268	21-Fire Suppression	333
